

International Centre for Free and Open Source Software (ICFOSS)

Dear All,

Greetings from ICFOSS !

ICFOSS, in its endeavour to promote development efforts in Free and Open Source Software, would like to Invite Engineering students who have interest in FOSS, for an internship for a period of one and a half months (During June-July). They are expected to develop a novel idea which can be converted into a product which shall be useful to the general public. They shall present the above product before an expert panel of ICFOSS at the end of the internship period.

Registrations can be done on-line [here](#)

Thanks & Regards,

Anjali G

Programme Officer (Technical)
